## Career Objective

A highly motivated Computer Science graduate skilled in Python, SQL, HTML, CSS, JavaScript, ReactJS, and Bootstrap, seeking an entry-level position in Software Engineering to leverage my technical knowledge, problem-solving ability, and teamwork skills in developing high-quality software solutions while continuously learning and growing within a dynamic organization.

## Education

### Annamacharya Institute of Technology & Sciences, JNTUH

Bachelor of Technology in Computer Science and Engineering 2021 – 2025

### Pragathi Junior College, Nalgonda

Intermediate (MPC) 2019 – 2021

## Technical Skills

|             |                                                    |
|-------------|----------------------------------------------------|
| Languages   | Python, JavaScript, SQL, HTML5, CSS3               |
| Frameworks  | ReactJS, Bootstrap                                 |
| Databases   | SQL                                                |
| Tools       | Git, GitHub, VS Code                               |
| Soft Skills | Problem Solving, Communication, Team Collaboration |

## Professional Experience

### Frontend Developer – Vrittify AI

Oct 2025 – Jan 2026

- Developed responsive user interfaces for an AI-powered learning platform using ReactJS, HTML, CSS, and JavaScript.
- Converted Figma designs into functional, reusable React components to improve development efficiency.
- Built role-based dashboards, quiz/assessment modules, smart scheduling, and a leaderboard system to boost engagement.
- Collaborated using Git and GitHub for version control.

### Web Development Intern – Eevolution Technology

Feb 2024 – May 2024

- Built responsive web pages using HTML, CSS, and JavaScript, improving UI consistency and user experience.

## Projects

### AI-Powered Learning Platform (Vrittify AI)

ReactJS, JavaScript, CSS

- Built a responsive platform supporting personalized learning, assessments, scheduling, and progress tracking for teachers and students.
- Implemented role-based dashboards, quiz modules, smart scheduling, and a leaderboard system.

### Task Scheduler – React Task Management App

ReactJS, HTML5, CSS3

- Developed a task scheduling app to create tasks, assign priority levels, set deadlines, and track completion.
- Used React state and conditional rendering to dynamically manage Upcoming and Completed task views.

### Audio to Sign Language Translator

Python, HTML, CSS, JavaScript

- Built an accessibility-focused app converting speech to text and mapping processed words to sign-language visuals.
- Implemented speech-to-text conversion and an animated, accessible output interface.

## Certifications

### Full Stack Development Course – Edzeeta Private Limited

Jul 2025 – Oct 2025

- Technologies: HTML5, CSS3, JavaScript, ReactJS, Python, SQL, Git & GitHub.
- [View Certificate](#)

### Python for Beginners – Simplilearn

Apr 2025

- [View Certificate](#)

### Web Development Internship – Eevolution Technology

Feb 2024 – May 2024

- Technologies: HTML5, CSS3, JavaScript, Responsive Web Design.
- [View Certificate](#)

### DataQuezt #2 – Python for Data – Naukri Campus

Aug 2026

- Participated in a placement-oriented Python assessment covering fundamentals, data structures, functions, file handling, NumPy, and Pandas.
- [View Certificate](#)

## Strengths

- Problem Solving
- Team Collaboration
- Communication Skills
- Time Management
