## Professional Summary

Entry-Level Full-Stack Python Developer skilled in building end-to-end web applications with Python, React.js, and SQL. Experienced in converting UI designs into modular React components, developing backend logic, and designing REST APIs. Strong background in database management and software engineering fundamentals.

## Technical Skills

**Languages:** Python, JavaScript (ES6+), SQL, HTML5, CSS3

**Frontend:** React.js, Bootstrap, Responsive Web Design

**Backend & APIs:** Python (Django), RESTful APIs, JSON Integration, InsightFace, OpenCV

**Databases:** SQL, Database Schema Design, Query Optimization

**Developer Tools:** Git, GitHub, VS Code, Postman, Figma

## Professional Experience

**Frontend Developer** Oct 2025 – Jan 2026

Vrity AI Hyderabad, Telangana

- Engineered responsive user interfaces for an AI-powered learning platform using ReactJS, HTML5, and CSS3.
- Translated Figma designs into 15+ reusable, modular React components, improving UI codebase maintainability.
- Built role-based dashboards, interactive quiz/assessment modules, smart scheduling, and dynamic leaderboards.
- Leveraged Git and GitHub for code versioning and optimized frontend performance with RESTful API integration.

## Key Projects

**AI-Powered Learning Platform (Vrity AI)** | ReactJS, JavaScript, CSS Oct 2025

- Developed an end-to-end portal featuring role-based dashboards for students and instructors.
- Integrated state management for real-time progress tracking, quiz assessments, and dynamic leaderboards.

**Audio to Sign Language Translator** | Python, HTML, CSS, JavaScript Apr 2025

- Engineered an accessibility application converting spoken speech into text and mapping words to visual outputs.
- Implemented speech-to-text processing pipelines connected to an animated, user-friendly frontend interface.

**AI Face Attendance System** | Python, Django, React, InsightFace, REST API Sep 2026

- Built end-to-end AI attendance system with real-time face recognition using InsightFace Buffalo\_S (512-d embeddings), Django REST APIs, and premium React dashboard.
- Engineered custom CORS middleware, face encoding pipeline, auto check-in/out with work-hours calculation, live occupancy tracking, and payroll Excel export.
- Integrated camera kiosk mode (OpenCV), branch/shift management, deployed with Python 3.14.5 – achieving 0.42+ cosine similarity threshold.

## Education

**Annamacharya Institute of Technology & Sciences, JNTUH** 2021 – 2025

Bachelor of Technology in Computer Science and Engineering Hyderabad, India

**Pragathi Junior College** 2019 – 2021

Intermediate (MPC) Nalgonda, India

## Certifications

- Full Stack Development Course – Edzeeta Private Limited (HTML, CSS, JS, React, Python, SQL, Git)
- Python for Beginners – Simplilearn
- Python for Data (DataQuezt #2) – Naukri Campus (Data Structures, Pandas, NumPy)

## Languages

Telugu, English

## Additional Information

- Interests:** AI/ML Applications, Open Source Contribution, Building SaaS Products, Problem Solving
- Soft Skills:** Team Collaboration, Quick Learner, Adaptability, Effective Communication
- Availability:** Immediate Joiner | Open to On-site, Hybrid, and Remote Roles
